President

Joel, this is a letter to introduce to you Paul T. Horan. He expressed an interest in global experim with 5 boulders and Global Town Meeting. He understands why it is a unique chance for a live space bridge. He is ready to participate in a WORKING GROUP to coordinate a global experiment.

PIONEER PRAVDA is ready to have a photophone exchange on the April 21, and part of the program we can discuss GTM. Also on the 22d of April it is planned the first formal ceremony with boulders. Why do not we connect Vienna via Teleport to Moscow [Mr. Bob Adrian cannot get a proper equipment to bring to me, he works with Kit and Sherri, but he is professional artist, without citizen diplomacy experience]. Willie Herndon from Toronto is another member of working group.

As soon as your working group will address us with an Idea TO HELD GLOBAL TOWN MEETING AS DESCRIBED IN TOM SEWELL MAIN MAGAZINE, you will receive a positive answer from our side [I mention here Oleg Uralov who is directly involved in this project].

Please call Willie [416] 781 8991 and invite him to work. If Bob Freling could join him...

By the way, why do not we include Univercity without walls into this game while sharing on the 24th of April.

I have a feeling that we are escaping our new freedom shaping ourselves into already digested patterns of communications.

I include a historic telegram a citizen diplomate Joseph directed to Foreign Minister to move the boulder. It cost 4 roubles 40 kopeks, less then a bottle of vodka.

I invite you and Diana to this new venture.
